

# HORIZON

أكاديمية دولية للطيران ذ.م.م. International Flight Academy L.L.C.

## History

Horizon International Flight Academy was established in 2003 as an academy for training Fixed Wing and Helicopter Pilots to International standards. Owned by Mubadala Development Company, the investment arm of the Abu Dhabi Government, Horizon opened its doors to its first batch of student pilots in September 2003 after receiving certification as an approved training institute from the U.A. E General Civil Aviation Authority .

## What we offer

Situated at Al Ain Airport and with a satellite branch in Umm Al Quwain, Horizon is in its fifth year offering both flying and non flying courses. Spread over 3100 square meters of training facilities, the academy is purpose built for flight training. Horizon is ideally suited for training in a focused Aviation environment and meets the requirements of the ICAO and JAA guidelines.

Horizon has ventured into broader aspects of the Aviation Industry in the region by diversifying its portfolio of services to additional lines of business including Aviation Consultancy services such as, fleet management as well as aircraft maintenance.

Over the years the academy has grown and our client base has expanded to the Middle East and Northern Africa Region; however, the commitment to customer satisfaction has not been deterred, in fact the Academy strives to meet the customer's needs and to provide the quality services the customer's have come to rely on from Horizon International Flight Academy.

## Our Partners

In the endeavor to provide the best services to clients, Horizon has entered into several strategic alliances and relationships to ensure that the services are not only comprehensive but of the highest caliber internationally. The partners include; Cessna, Bell/Augusta Aerospace Company, ADNOC and Khalifa Bin Zayed Air College (U.A.E AF & AD).
