PIGUET Watchmakers & Jewellers

A seller of dreams on the shores of Lake Geneva

Stealing a glance to the rear of the shop, one is transported back in time. Bent over a double workbench, two master watchmakers in white coats are hard at work. Wearing specialist eyeglasses, they restore and repair the watches that have been entrusted to them. Time seems to stand still in this atelier and it is clear that this Nyonnaise watchmaker & jeweller has kept its roots intact.

Founded in 1966, PIGUET have been servicing customers with an easy-going and non-conformist attitude for over 40 years and pride themselves on being down to earth and warmly welcoming. Located in the heart of picturesque old Nyon with ample parking close by only adds to the pleasure of a visit to this delightful shop.
